SOVRANTI App
Settings and Features

Icon/ Features

Function

Upper Left Menu

If any section is red, that feature is visible on your screen.
If any section is gray, that feature is not visible on your screen.
Tap or click the section to add or remove the area from your screen.

Close the menu.

Chat bar at the top of your screen.

Volume and Settings buttons on the left of your screen.

Player Icons and upper right menu on the right side of your screen.

Lower Left Menu

When a function is selected, it is red and in the center circle of the menu. This is what is visible on your screen.

Friends - Search, block and accept pending requests.

News - See news and future releases.

Table - See open tables, the game shelf, and your table.

Avatar and Nickname - Change your avatar and nickname.

Upper Right Menu

When a function is selected, it is red and in the center circle of the menu. This is what is visible on your screen.

Volume - Click on other player's avatar icon to change their volume.

Player Information

Camera - Adjust your camera tilt angle with the sliding bar on the left or click on other player's avatar icons on the right to see their view. In addition to camera function, you can move your view.
- Mobile Device: Slide your finger around the screen to move your view around. Use two fingers and spread them out to zoom in.
- Mac Computer: Click with two fingers to move your view around. Use two fingers and slide up on your track pad or use a scroll wheel on a mouse to zoom.
- PC Computer: Right click to move your view around. Use the scroll wheel on a mouse to zoom.
